

All Swine Rules and Regulations

Division 4 – Section 104

Market Swine

Lance Reavis, Superintendent

The following breeds may be entered: Berkshire, Chester White, Duroc, Hampshire, Poland and Spotted Poland, Yorkshire and other breeds or cross-breeds

Rules

1. An entry card will be filled out on each animal by the responsible Ag-Ed Teacher, 4-H leader, or principal. The card will be turned in by 12 noon Wednesday to the swine superintendent. The entry card will have the name of exhibitor, school represented, breed of swine, weight of swine, ear tag number and signature of the Ag-Ed teacher, 4-H leader, or principal.
2. After entry deadline, swine breeds will be divided into three weight classes. If there are 32 or more animals in one breed, there will be four classes and add a class for every 8 entries in that breed. Max number of classes per breed is 7. There will be a minimum entry weight of 190 pounds and a maximum weight of 280 pounds. The weight classes will be determined by a committee composed of a swine superintendent, a Fair Board member and one other person selected by the swine superintendent.
3. At the judges' discretion, the top five swine selected in a class may be weighed at the time during the class only and must not weigh more than 10 pounds above the top weight limit of the class or less than 190 pounds. The weigh back will be on official scales, by a staff appointed by the Fair Board.
4. If there are five or more swine in the county bred class, then the champion and reserve champion county bred swine will be number 3 and 4 swine in the sale unless they are grand and/or reserve grand overall. If less than five head are in the county bred class then the champion county bred swine would make the premium sale.
5. Swine which do not meet the weigh back requirements will be disqualified.

6. The swine judge has the authority to reclassify an animal if he or she feels the breed characteristics are not met. That animal will be placed in the appropriate crossbred class.
7. Barrows or gilts may be exhibited.
8. The market swine placing 1st, 2nd, or 3rd in each class will automatically qualify for the premium sale.
9. Exhibitors may enter 3 market swine and 3 breeding gilts.
